

THE CHILD - GIFT OF GOD

BY ANTUN LISEC

No Pill !
No IUD!
No condom!
No sterilization!
No artificial fertilization!
No sin!

* The intrauterine device (IUD) kills children. While using the IUD, fertilization occurs, but the IUD does not allow the child to get "implanted" in the womb and the child usually dies in the first days of its life. The absence of menstrual bleeding means that the child survived and implanted itself. Abortion is not justified or permissible in such cases either.

The IUD causes a healthy woman to become sick (bleeding, the pain, anaemia, suppuration-purulence in the uterus, in the Fallopian tubes and in the abdomen...).

* The Pill is also the cause of many serious diseases such as breast cancer, cancer of the womb, heart attacks, strokes, phlebitis, embolisms etc. While taking each kind of Pill, ovulation and conception still often occurs. However, the baby usually dies from starvation because the Pill dehydrates the glands and decreases the food supply (glycogen) in the endometrium (the lining of the womb). If, while the mother was on the Pill, she missed her period, it is an indication the child survived. Remember, abortion is never allowed.

* While taking Depo-Provera, implants, different post-coital means, etc., fertilization also occurs and these methods automatically kill babies. Jesus said: *"Truly, I say to you: whenever you did this to one of the least, of these my brothers, you did it to Me."* (Matthew 25:40). The life of a human being starts at the moment of conception. These tiny newly-conceived babies are the "least" of our brothers and sisters, what we do to them is what we do to Jesus.

* Do not forget that contraception, sterilization, the killing of the unborn children and artificial fertilization when conception takes place without a specific act of conjugal love of his parents

(artificial insemination and in vitro fertilization) are mortal sins. It is very rare that children conceived *in vitro* survive. Most of them are killed or kept alive but frozen in the refrigerators.

Sins are never allowed! Sins are not a solution for any problem, they only bring new problems.

Do not allow and do not participate in early amniocentesis nor in the other prenatal diagnostic procedure which aim at hunting down and killing sick children.

* The Holy Father Pope Pius XI in the Encyclical "Casti Conubii", in 1930 wrote:

"...56. Since, therefore, openly departing from the uninterrupted Christian tradition some recently have judged it possible solemnly to declare another doctrine regarding this question, the Catholic Church, to whom God has entrusted the defense of the integrity and purity of morals, standing erect in the midst of the moral ruin which surrounds her, in order that she may preserve the chastity of the nuptial union from being defiled by this foul stain, raises her voice in token of her divine ambassadorship and through Our mouth proclaims anew: any use whatsoever of matrimony exercised in such a way that the act is deliberately frustrated in its natural power to generate life is an offense against the law of God and of nature, and those who indulge in such are branded with the guilt of a grave sin.

57. We admonish, therefore priests who hear confessions and others who have the care of souls, in virtue of Our supreme authority and in Our solicitude for the salvation of souls, not to allow the faithful entrusted to them to err regarding this most grave law of God; much more, that they keep themselves immune from such false opinions, in no way conniving in them. If any confessor or pastor of souls, which may God forbid, lead the faithful entrusted to him into these errors, or should at least confirm them by approval or by guilty silence, let him be mindful of the fact that he must render a strict account to God, the Supreme Judge, for the betrayal of his sacred trust, and let him take to himself the words of Christ: "They are blind and leaders of the blind: and if the blind lead the blind, both fall into the pit. (Mt 15,14) ..."

* These who produce, distribute and advertise the condom, are guilty because of their help in the performance of different sins, such as fornication, adultery, contraception etc. At the same time, they have been offering a false safety that infection will not happen. It's confirmed that in spite of the use of the condom the transmission of diseases like AIDS, Human Papilloma Virus causing cancer of the uterus, Chlamydia Trachomatis, Herpes Genitalis, Syphilis, Hepatitis and different other diseases still happens.

* The Pontifical Council for the Family's Document, "The Truth and the Meaning of Human Sexuality", from 1995 in paragraph 139. says: *"... In this situation, parents must also reject the promotion of so-called "safe sex" or "safer sex", a dangerous and immoral policy based on the deluded theory that the condom can provide adequate protection against AIDS. Parents must insist on continence outside marriage and fidelity in marriage as the only true and secure education for the prevention of this contagious disease".*

* Let us respect the fact that human sexuality may not be used outside of a marriage blessed by God, which is indissoluble.

When there is a serious and justifiable reason to avoid conception, there is a solution without sin. There are natural methods which requires abstinence during the fertile part of a woman's cycle (the Billings or Sympto-Thermal methods).

Pray to God to show us what more we can do to protect endangered lives and moral values.
