THE SACRIFICE OF JESUS

BY CHRISTOPHER BENJAMIN

Did Jesus die at the cross or not?

This question is often discussed between Christians and non-Christian, scientists and Church, believers and non-believers. And in books like '*Jesus lived in India*' from Holger Kersten, '*The Nine faces of Christ*' by Eugene E. Whitworth or '*The Gospel of Peace according to St. John*' translated by Edmond Bordeaux Szekely or '*The Gospels par St. Thomas*' show us Jesus as a different man than the Church preaches. But there exist a lot of more books about him. How should Christians deal with them and how with this idea that Jesus survived the martyr at the cross?

How important it is for mankind that Jesus died at the cross or ... how important was his sole sacrifice for the continuation of life on earth? And what did it represent for the spiritual evolution of every single man?

The Universal Brotherhood of Light talks also about that. Here are two thoughts about this subject:

Christians claim that they are saved because Jesus came to earth and shed his blood for them. Yes, Jesus came to save mankind, but not in the way that Christians understand. If they have really been saved, why are they always up to their necks in the same wars, the same misery and illness? The sacrifice that Jesus made signifies something quite different. At the time that Jesus came to earth, the psychic path between Heaven and earth was blocked. All the disgraceful behaviour, all the criminal thoughts and feelings, and all the unbridled passions of previous generations had created numbers of monstrous creatures on the astral plane, which were preventing people (apart from a few high beings) from progressing spiritually. So Jesus sacrificed himself to clear that path; the blood he shed appeased the appetite of all those monsters. It is impossible for us to imagine the infinitely vast proportions of such a sacrifice. Thus Jesus did truly save human beings, but not in the sense that Christians believe. The way to Heaven is now clear, but it is up to us to make the journey.

That's why Jesus sacrificed his life at the cross: He had freed unimaginable powers which worked for the good of mankind, because his blood was one of the most precious substances which had been spread throughout the universe. A condensation of the divine essence, of the Divine life.

The blood is different in all creatures and its quality depends on its degree of evolution. The blood represents the life which circulate in space, and this life possess a more or less high degree of purity, light and power. The blood of Christ is comparable with the light of the sun. As soon as it was given the Divine energy, with which it was impregnated, had released on Earth unknown currents which were not known until then and which opened a new page of life.

My very first book I read was written by a Protestant priest about his personal scientific research and intellectual reflections on the 'Sheet of Turin' (which is proclaimed to be the cloth of Jesus) and right after that, the book '*Jesus died in India*', my faith increased tremendously. But this kind of faith which most Christians lack: the faith that God works through man, through you, as soon as you become prepared and faithful enough to let Him work! Nothing is impossible for those who believe and do the demanded work!

*'... If man listens God speaks,
if man obeys, God acts.
And if men change nations change!'*

CHRISTOPHER BENJAMIN – *THE SACRIFICE OF JESUS*

All that you will discover by reading books like these and if you read them with the right awareness. Later on you will start practicing this life Jesus asks you to live. You feel committed to it. Then you are able to do so because you realized already that your Heavenly Father cares for you in a way that you always have exactly that what is needed ... physically and psychically. The greatness and justice of God becomes revealed everyday of your life. How? Meditate on this ... and you will discover your reality!

Why should you worry ... as long as you are in His service? Your only interest is to serve Him in the most perfect and loving way. You fulfill your work He asks you to do! So he serves you like huge companies who grant their employees salaries of 13/14 months inclusive an extra, wonderful pension of their own.

You, me, we all are the living Grace of God and the vessels in who He pours out His Grace as long as you are willing to receive it. But ... and this should also be clear for you ... He doesn't use every vessel in any condition! Doesn't Jesus say that you shouldn't use old hoses for new wine? That you only should use new hoses for new wine? Only then you can trust these hoses that they will keep their content (which is another kind of faith!). And do you think God works in a different way?

He also uses new vessels which mean those human beings who prepared themselves for being able to be in divine service! Therefore the book '*The Gospel of Peace par St. John*' translated by Edmond Bordeaux Szekely was and is the right handbook to do the personal transformations which are needed to be in His companionship and service. Fasting is one key to become new physically and spiritually!

The Universal Brotherhood of Light:

So many Christians are content to accept the idea that, to be saved, all they have to do is to believe! And believe what? That Jesus saved them by sacrificing his life on the cross. No, it is not so easy! If you work, if you prepare yourselves, then yes, Jesus will act powerfully through your good will and will save you. But if you do nothing, you will not be saved.

Faith works, whereas belief waits. Belief declares: '*It is said that the Christ will come on clouds, that he will send out his angels with a loud trumpet call, and that everyone will be resurrected.*' Well, we may wait a long time for this angel with his trumpet. He has already come, and many were resurrected because they had true faith, because they were working and were not content to wait passively.

Accepting the sacrifice of Jesus doesn't mean to dwell on it! It means Jesus freed us the way to live in the light, in splendor and to be able to live a life in joy and happiness. After his resurrection his suffering was over and he was able to live a new life under new conditions!

How often do the Church and the Christian believers forget that?

After Jesus' '*Death at the Cross*' a new life started for him ... and therefore for you, for all of us! You should accept that. You have to understand that the old Adam, who was (according to Paul) born in eternal sin, was crucified and the new Adam was liberated from his heritage of sin to be able to follow His Father and to join Him in the work to transform this earthly place into a reflection of Heaven. And by doing so, he, what means you, becomes a reflection of His Heavenly Father, what you suppose to become!

We are sons and daughters of God! Did you forget that? I know the Church did, but that is their problem! They oversee the main important message Jesus gave us: we are sons and daughters of our Heavenly Father and we are here on earth to become as perfect as our Heavenly Father in Heaven and ... to transform this earth (your inside and outside world) into a reflection of Heaven! Concentrate on these words and feel the uplifting which it brings! Feel inspired to follow the divine path which is prepared ... for you!

Read this following prayer given by the Universal Brotherhood of Light and meditate, contemplate and let it impregnate your entire being:

THE BEATITUDES

Thus, all the Brothers and Sisters, radiant, luminous and beautiful as Seraphins, as Cherubims, as Children of God, will stride through life praising God, spreading His Glory everywhere, so that the Kingdom of God may come as quickly as possible, and Life will be filled with Rejoicing, with Joy, Poetry, Music and all humanity will vibrate with Life, and all will live as Brothers. And rivers will flow and flowers will perfume the air, and birds will sing divinely, and all Life will sing the Song of the Glory of God. And there will be no more war, there will be no more devastation, misery, illness or crime. And the Earth will be for the first time, at last, a True Land of the Living!

Together in this Universal Brotherhood of Light, in Harmony, in accordance with the Spirit!

Here is my wish:

May the Angels and Archangels now open the doors and open their generosity toward all mankind, especially toward the Universal Brotherhood of Light, and may there be abundant Light and Understanding, and may there be abundant Joy and Happiness, so that man finally fulfills, realizes his High Mission for which he came upon the earth, and may he reflect and express his Heavenly Father, the Creator and the Beauty of Heaven.

Blessed are those who have this consciousness!

Blessed are those who work in this direction!

Blessed are those who are useful!

Blessed are those who have decided to become channels of the Heavenly Father!

Blessed are those who are gentle and kind!

Blessed are those who dwell in peace!

Blessed are those who want to work and sacrifice themselves!

Blessed, blessed are the Children of the Universal Brotherhood of Light!

Become successful, happy and fulfilled by doing what your soul desires. Listen to your inner voice, become a temple for the living God, fast and clean yourself. You will see the changes within your life and in the world around you.

... and this is the idea of Jesus' sacrifice too.
